

COMPANY GUIDE

INTERNSHIP FAIR

PREPARE FOR YOUR JOURNEY

17 NOVEMBER 2021

Introduction

Dear student

In your path towards becoming an Engineer, you learn an immense amount of knowledge. Now the time has come to put all the information you gained to practice and we believe there is no better way to do this than through an internship.

At VTK Bedrijvenrelaties we have a lot of experience with internships on a personal level and we certainly recommend you to take on this first industry experience.

In this brochure we have listed the companies that will be participating in the internship fair. With a little extra information and in which directions they are interested. Now, we have a very broad education, so don't be discouraged if a company doesn't point out your direction and talk to them, chances are they have an internship for you too.

Finally, enjoy this fair and try to make the most of it for yourself.

VTK Corporate Relations 2021-2022

BASF
We create chemistry

Company information

Hi There!

Our BASF colleagues work together worldwide to develop innovative solutions and advanced concepts. Their passion makes our company thrive and strengthens our leadership position in the sector.

With our slogan "We create chemistry" we mean our production of high-quality products and intelligent solutions. For example, BASF plays an important role in finding answers to global challenges such as climate protection, energy efficiency, nutrition and mobility. With more than 110,000 employees, we are at the service of customers and partners in almost all countries of the world.

BASF welcomes dynamic, passionate and creative team players. BASF offers a pleasant work environment, solid training tools and an active job rotation policy.

BASF also offers an attractive salary and an extensive package of benefits, such as company car with fuel card, smartphone, internet allowance, meal- and eco-vouchers and an interesting insurance package.

Not graduating yet? Get to know which internships we offer at the VTK Leuven Internshipfair! Hope to see you there."

Recruitment offer

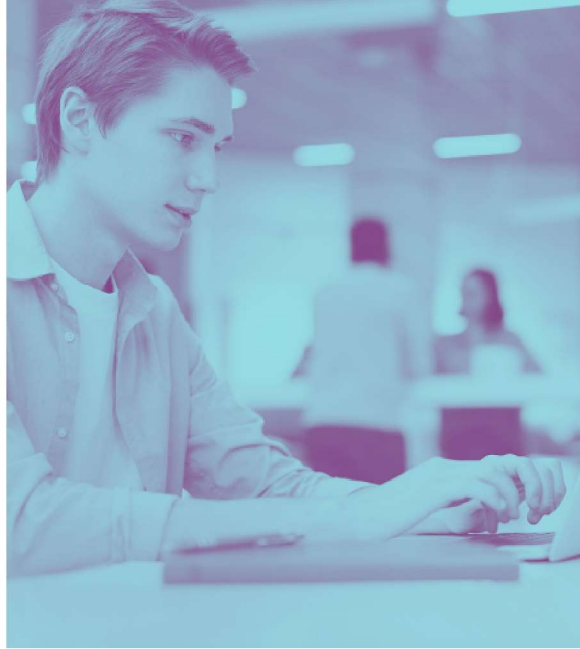

As an (Electro-)Mechanical, Electrical, Materials, Chemical or Energy Engineer you have numerous possibilities within different professional services and production departments at BASF Antwerp to do an internship.

Meet us at the VTK Leuven Internshipfair to inquire which internships we have got to offer during the summer of '22. You can also find them online at www.werkenbijbasf.be/stages.php as of mid November. Stay

5 REDENEN OM EEN CORILIAN TE WORDEN

2. BLIJVEN LEREN MET DE CORILUS EMPLOYEE COLLEGE

Je kiest uit meer dan 200 opleidingen. Van taalcursussen tot een initiatie assertieve communicatie of een specifieke opleiding binnen je vakgebied, alles is mogelijk!

4. AANTREKKELIJK LOONPAKKET

Je stelt zelf je verloningspakket samen volgens jouw noden. Een paar extra vakantiedagen of een nieuwe fiets leasen? Jij beslist!

Per gewerkte dag krijg je 8 euro maaltijdcheques om jezelf op lekkers te trakteren.

Jaarlijks ontvang je ook ecocheques ter waarde van 250 euro.

Je geniet van een groepsverzekering en hospitalisatieverzekering (inclusief ambulante zorg).

1. WORK-LIFE IN BALANS

Files vermijden? No worries! Via ons flexibel uurrooster kies je zelf wanneer jouw werkdag stopt en start.

Af en toe een dag thuiswerken, da's geen enkel probleem.

3. ONBOARDING TRACK OP MAAT

Je eerste dag begint meteen goed: je krijgt een Welcome Box vol verrassingen.

Tijdens de eerste 6 weken doorloop je een opleidingsplan waarin je wordt ondergedompeld in jouw job.

Tot 6 maanden na je start krijg je bovendien intensieve opvolging on the job.

5. EEN 10 VOOR SFEER EN GEZELLIGHEID

Van dagelijkse tornooitjes aan de kickertafel over de zomerse barbecue tot de jaarlijkse Winterparty die tot in de vroege uurtjes duurt: bij Corilus maken we actief werk van een tof groepsgevoel. Het resultaat: een leuke, amicale sfeer waarin iedereen iedereen kent.

Bouw jij mee aan de gezondheidszorg van de toekomst?

Word dan één van onze Corilians op jobs.corilus.be

Corilus is, als toonaangevend medische software provider, op een missie om een slim en efficiënt zorgsysteem te ontwikkelen door zorgverleners, patiënten en belanghebbenden met elkaar te verbinden.

Be part of
our energy

Energy lives here™

Location: Antwerp, Zwijndrecht, Meerhout

Internship Engineer - Belgium

We are more than just one of the largest energy companies in the world. ExxonMobil is a place where people think independently, take initiative, grow to their full potential and help shape the future of energy. We strongly believe that diversity drives innovation and our inclusive workplace helps everyone thrive, regardless of their background. The safety and wellbeing of our employees is at the heart of everything we do.

ExxonMobil offers internship opportunities to Engineering students. You will be located in one of our manufacturing sites in the Antwerp Area.

What role will you play in our team

As an intern with ExxonMobil you get a well-defined task and will be coached by a dedicated ExxonMobil coordinator. The internship environment is young and dynamic and gives a clear image of a typical starting environment. Each internship subject contributes to our business and will give you a 'taste' of a typical starting position within ExxonMobil.

During your internship you will perform a project for one of our engineering departments and will learn to work independently in a professional work environment.

The various areas in which you may work cover virtually all aspects of the engineering work. Typical projects covered by interns are for example:

- Process simulation
- Safety studies
- Monitoring software
- Economic studies
- etc...

Length of program: 4 to 6 weeks

Who are we looking for

- University students: Engineering Science (Chemical, Materials, Mechanical, Electrical, Energy, Applied Physics) and Bioscience Engineering (Chemistry & Bioprocess Technology, Catalytic Technology). Students who are in their 2nd year Bachelor or 1st year Master.
- You have a fluency in Dutch and English

Curious about this opportunity?
Stay connected with us and apply

Hope to welcome you soon!

HOUBEN

Company information

What we do at Houben? Easy: we construct buildings. But that's not even half our story. We give shape to tomorrow's society. Living, working, playing, celebrating, getting together... inside and around buildings founded on innovative and sustainable ideas, by every member of our family. Because that's who we are. Nearly 90 years of family business with a solid plan for the future.

We are a global partner throughout the building process. From the very first plans up until the finishing details, we aim to reach the highest possible levels of quality and efficiency. How? By working with experienced building teams and optimizing our organization on a daily basis. Lean principles, building information modeling, total cost of ownership... These are just some ways to fulfill the full potential of each of our building projects. Disregarding its purpose.

Recruitment offer

Is the construction site your natural habitat? Are you someone who enjoys working on high-level and challenging projects of any dimension? Who combines organizational leadership with great financial planning and problem-solving skills? Someone who thinks further, who's involved, open and respectful towards his co-workers? At Houben, this is the attitude we look for in a construction coordinator. As a construction coordinator at Houben, we offer you the challenge of a lifetime. With room for learning, responsibility and a career plan full of possibilities. Let's meet and tell you more about what we have to offer.

SAMEN BOUWEN AAN DE STRAFSTE PLANNEN

Welke straffe stage(s) kan je bij ons lopen?

- ...op kantoor als calculator - aankoper - controller – werkvoorbereider? Zeker! Op één van onze kantoren in Drongen, Kapellen, Kontich, Mechelen, Hasselt of Lokeren.
- ...op één van onze werven in uitvoering binnen infra , burgerlijke bouwkunde, gebouwen, industriebouw, funderingen,...? Onze werfleiders, werkvoorbereiders of projectleiders geven je een leerzame begeleiding! Bij de keuze van de werf houden we uiteraard rekening met je woon/verblijfplaats (elke kilometer die je aflegt, wordt vergoed).

Ja, ik wil een straffe stageplaats!

Hoe? Simpel:

- Kom langs op onze Willemen stand op 17/11
- Je krijgt de kans om onze recruiter Jill te ontmoeten én een van onze pas afgestudeerde ingenieurs

What's in it for you?

Je krijgt de kans om te leren van en ervaring op te doen bij één van onze straffe collega's.

Op dag één krijg je meteen een laptop, de nodige PBM's om veilig te starten en de nodige uitleg om je ding te doen en er dus meteen in te vliegen. Onze personeelsdienst volgt je stage op zodat ze aan het einde van je stageperiode samen met jou je toekomstmogelijkheden binnen onze groep kunnen bespreken (een vast contract, een vakantiejob,...).

Tot snel?

Willemen

www.willemen.be
jobs@willemen.be
Diverse locaties in België

Company information

WILLEMEN GROEP is vandaag één van de grootste familiale Belgische bouwgroepen. De uitbouw van de groep raakte tijdens de vierde generatie in een stroom versnelling, onder andere met de overname van aannemingsbedrijven als Franki (1998), Cosimco (2005), Groep De Waal (2005), Aswebo (2011), Aannemingen Van Wellen (2014) en Kumpen (2018).

Onze groep telt 2.300 medewerkers en creëert daarnaast een indirecte tewerkstelling voor een veelvoud daarvan. De bedrijven binnen onze groep leggen zich allen toe op specifieke niches in het bouwsegment. Dankzij de onderlinge complementariteit kunnen ze samen zelfs de meest complexe opdrachten aan.

Recruitment offer

Company information

Cars, wind turbines, design homes... everywhere you look, you will find our steel. Creating innovative and durable steel products for a wide range of everyday applications is what we stand for.

Our strengths are clear: we work with highly skilled professionals, are close to our customers and our infrastructure enables collaboration with complementary sectors.

In addition, our steel is also seen as the cornerstone of a circular economy and as a basic material for renewable energy.

Without ArcelorMittal, the world's largest steel and mining company, your world would look completely different.

Steel is everywhere.

And our steel can be made by you!

Join our team and get started with today's most innovative technologies.

BAM Contractors

bamcontractors.be
joni.versmessen@bamcontractors.be
Neder-Over-Heembeek, Sint-Truiden & Gent

Company information

BAM Contractors is een multidisciplinaire speler in infrastructuur. We maken als operating company deel uit van de Koninklijke BAM Groep. Zowel publieke als private klanten kunnen beroep doen op onze expertises in spoor- en wegenwerken, tunnel- en bruggenbouw en industriële projecten. Deze expertises zijn het resultaat van decennia aan ervaring, en een doorgedreven focus op kwaliteit en innovatie.

Naast kwaliteit, worden onze 410 BAM-medewerkers gedreven door veiligheid, vakkennis en service. Met kantoren in Eke, Sint-Truiden en een hoofdkantoor in Neder-Over-Heembeek verzekeren we onze partners een landelijke dekking én nabije dienstverlening. Multidisciplinair, duurzaam en betrouwbaar, dat is BAM Contractors.

Recruitment offer

Civiele bouwkunde & infrastructuur werken - bruggen, tunnels, sluisen, wegenis & spoor

BCG

 www.bcg.com
 debievre.aurelie@bcg.com
 Brussels

Company information

Boston Consulting Group partners with leaders in business and society to tackle their most important challenges and capture their greatest opportunities. BCG was the pioneer in business strategy when it was founded in 1963. To succeed, organizations must blend digital and human capabilities. BCG's diverse, global teams bring deep industry and functional expertise and a range of perspectives to spark change through leading-edge management consulting as well as data science, technology and design, digital ventures, and business purpose. We work in a uniquely collaborative model across the firm and throughout all levels of the client organization to deliver results that help our clients thrive.

Recruitment offer

BCG's internship programs give students from many disciplines and backgrounds the opportunity to get a true feel of what it's like to work at BCG. More than an opportunity to bolster your résumé, an internship offers the potential to launch a career at BCG—as a vast majority of our interns receive offers for full-time positions. As a BCG intern, you'll work with and be mentored by BCG consultants, and you'll take responsibility for specific components of a client project. As a case team member, you'll gain a 360-degree perspective on life as a BCG consultant—from working on client projects to socializing with colleagues. We accept online applications from exceptional business school, engineering, science, law, and humanities students who are nearing the completion of their undergraduate or graduate studies.

Coca-Cola

 nl.coca-cola.be
 TalentAcquisitionBELUX@ccep.com
 Anderlecht

Company information

Coca-Cola Europacific Partners (CCEP) is a major fast-moving consumer goods business and the world's largest independent Coca-Cola bottler. With a dedicated team of 33,200 people, serving customers in 29 countries, we make, sell and distribute the world's most loved drinks brands to more than 600 million people. In Belgium, we propose including Coca-Cola, Fanta, Sprite, Chaudfontaine, FuzzTea, Finley, Aquarius, Monster, Minute Maid, Appletiser, Nordic Mist, Hawaii, Poms, Tropic, Topo-Chico, Costa en Chaqwa. And we want a workforce as diverse as our products – with a culture that fosters belonging and inclusivity. One that enables everyone to be themselves, whatever their background or experience. From gender, age and ethnicity to sexual orientation and different abilities, we welcome people from all walks of life and empower unique perspectives. We recognise we've got some way to go, but we'll get there with the support of our people. It's them who drive our future growth.

Recruitment offer

Supply Chain, Logistics, Commercial Development, Sales, Category Management, Chemistry

Exellys

🌐 exellys.com
✉ laure.busschot@exellys.com
📍 Mechelen

Company information

Degree in IT and looking for the right opportunity for you? Exellys can guide you from start to finish. We will start by linking your competencies, skills, and ambitions to the right career opportunities within the company and sector where you want to gain your first work experience.

Once we have turned your ambitions into your dream job, you will start with the two-year Start Smart training programme to develop your technical and soft skills so you can progress from a graduate to young potential. Again, you will receive professional guidance from one of our certified coaches, who will support you at project and career level throughout the process.

Once you have completed the Start Smart programme, we will take another look at your ambitions for your next career step. Do you want to become an expert, or do you rather see yourself as a team leader?

The choice is yours, and we are right beside you to help you plot your career path and achieve your goals.

Recruitment offer

At Exellys we believe in the 'talent first' principle. Are you currently pursuing your degree in IT and looking for an internship? Then maybe we, at Exellys, can make this happen!

How? Exellys matches your skills and ambitions with the right internship opportunity at one of our clients. During your internship, we will guide you and even coach you to already give you a sneak peek of what Exellys has to offer also after graduation. So you will not only have a mentor at the client side, but also a professional and certified coach at Exellys' side.

Supply Chain, R&D, Manufacturing, Quality, Finance, Procurement, Engineering, Maintenance, etc.

Keysight Technologies

🌐 keysight.com
✉ wim_cresens@keysight.com
📍 Rotselaar

Company information

At Keysight Technologies we deliver hardware and software for test-and-measurement solutions for wireless communications, aerospace & defense, cloud & datacenter, automotive & energy. Over 13,000 Keysight employees serve customers in more than 100 countries.

Recruitment offer

This internship is with the Keysight Laboratories ASIC Technology team in Rotselaar, Belgium. Keysight Laboratories is an international technology organization enabling Keysight to be first to market with breakthrough products and solutions.

ASICs and Digital Signal Processing (DSP) are the core business of the Keysight Laboratories ASIC technology team and a key enabler for Keysight's solutions as they drive the performance and value of Keysight's future solutions. We now have an opportunity for a Digital Design and DSP internship. This internship will provide you with the opportunity to extend your hands-on experience in synthesized Digital and DSP design.

Nexuzhealth

🌐 nexuzhealth.com
✉ lita.loonbeek@cegeka.com
📍 Hasselt, Leuven, Gent

Company information

Nexuzhealth is Vlaams marktleider in het beheer van elektronische patiëntendossiers (EPD). Opgericht in 2016 door UZ Leuven en Cegeka, bouwt het op 25 jaar ontwikkeling aan het Klinisch Werkstation (KWS) binnen UZ Leuven. Nexuzhealth combineert zo de jarenlange ervaring van beide organisaties in ICT en gezondheidszorg met de passie van een startup.

Door de samenwerking tussen verschillende ziekenhuizen én de patiënt op een transparante en eenduidige manier aan te bieden vergroot nexuzhealth de kwaliteit van de zorgverlening.

Vandaag werken al 37 Vlaamse ziekenhuizen en zorginstellingen met KWS, goed voor ongeveer de helft van de Vlaamse ziekenhuisbedden. Ook de patiënten vinden de weg naar mynexuzhealth.be, het platform waar elke patiënt van een aangesloten zorginstelling zelf gratis zijn dossier kan raadplegen. Zo'n 1 miljoen patiënten gebruiken het dossier al in hun contacten met hun zorgteam, hetzij via de computer of via smartphone.

Healthcare & ICT

RoboJob NV

🌐 robojob.eu/over-robojob/werken-bij-robojob
✉ evelyn.timmermans@robojob.eu
📍 Heist-op-den-Berg

Company information

RoboJob is een Vlaamse scale-up, gespecialiseerd in slimme robotica-systemen voor de metaalindustrie. Een cruciaal onderdeel van onze toepassingen is onze innovatieve besturingssoftware. Dit systeem stuurt robots en andere machines aan, optimaliseert de productieplanning en voorziet een eenvoudige, gebruiksvriendelijke interface. Het wordt volledig in-house ontwikkeld in een hogere programmeertaal door een hecht team van getalenteerde experts.

Recruitment offer

Vandaag zijn we op zoek naar 2 high potentials (Studenten of Trainees) die ons hoogtechnologisch team kan vervoegen en mee kan bouwen aan ons succesverhaal.

Internship 1: de ontwikkeling van een geautomatiseerde kalibratie van een robot met visietechnologie. (software development + elektronica + mechanica)

Internship 2: de ontwikkeling van een geautomatiseerde kallibratie voor servo-gestuurde grijper door middel van sensoren. (software development + robotica + mechanica + elektronica)
