Dear student

In your path towards becoming an engineer, you learn an immense amount of knowledge. Now the time has come to put all the information you gained to practice. An internship is the perfect opportunity to do this.

At VTK Corporate Relations we have a lot of experience with internships on a personal level and we certainly recommend you to take on this amazing first industry experience.

In this brochure we have listed the companies that will be participating in the internship fair with a little extra information like in which studies they are interested. Now, we have a very broad education, so don't be discouraged if a company doesn't point out your direction and go talk to them. Chances are they have an internship for you as well!

Finally, enjoy this fair and try to make the most of it for yourself.

VTK Corporate Relations

Ruben, August, Gilles, Jethro, Marie, Mathias and Vincent

WHY NOT TODAY?

IT Recruitment Day

A FIRM JOB OFFER THE SAME DAY

Are you a total IT fanatic?

Then join the technological
[r]evolution at AG.

Find out more about your dream
job at our IT Recruitment Day
on **15 March** or **5 April**, and walk
away with a firm job offer in hand.

 Antwerpen

Company Information

Our BASF colleagues work together worldwide to develop innovative solutions and advanced concepts. Their passion makes our company thrive and strengthens our leadership position in the sector.

With our slogan "We create chemistry" we mean our production of high-quality products and intelligent solutions. For example, BASF plays an important role in finding answers to global challenges such as climate protection, energy efficiency, nutrition and mobility. With more than 110,000 employees, we are at the service of customers and partners in almost all countries of the world.

BASF welcomes dynamic, passionate and creative team players. BASF offers a pleasant work environment, solid training tools and an active job rotation policy. BASF also offers an attractive salary and an extensive package of benefits, such as company car with fuel card, smartphone, internet allowance, meal- and ecovouchers and an interesting insurance package.

Not graduating yet? Get to know which internships

Recruitment offer

As an (Electro-)Mechanical, Electrical, Materials, Chemical or Energy Engineer you have numerous possibilities within different professional services and production departments at BASF Antwerp to do an internship.

Meet us at the VTK Leuven Internshipfair to inquire which internships we have got to offer during the summer of '22. You can also find them online at www.werkenbijbasf.be/stages.php as of mid November. Stay tuned!"

ENERGY PAYBACK PROJECTS

CEE is de leidende innovatieve onderneming inzake industriële energie-efficiëntie sinds 2007. Als onafhankelijk partner realiseren wij energie-optimalisaties en bijhorende emissiereducties voor energie-intensieve productieprocessen, wereldwijd. Onze diensten concentreren zich rond R&D, Studies, Analyses, Piloottesten, Industriële Opschaling, Constructie, Opstart, Opvolging t.e.m. zelfs Financiering en Exploitatie van complexere industriële energie-installaties. Wij zoeken gepassioneerde ingenieurs in spe om bij ons hun eerste stappen in het beroepsleven te zetten. Dankzij onze innovatielabo en gevarieerde projecten kunnen we zowel masterthesis onderwerpen als stages aanbieden.

Geïnteresseerd? Bekijk op www.cee.eu/stages de mogelijke stagevoorstellen.

CEE Engineering

cee

ENERGY PAYBACK PROJECTS

📧 cee.eu

@ info@cee.eu

🌐 Hamme-Mille / Leuven

Company Information

CEE is de leidende innovatieve onderneming inzake industriële energie-efficiëntie sinds 2007. Als onafhankelijk partner realiseren wij energie-optimalisaties en bijhorende emissiereducties voor energie-intensieve productieprocessen, wereldwijd. Onze diensten concentreren zich rond R&D, Studies, Analyses, Piloottesten, Industriële Opschaling, Constructie, Opstart, Opvolging t.e.m. zelfs Financiering en Exploitatie van complexere industriële energie-installaties.

CEE staat voor Creative, Economical, Environmental. Dat is de exacte samenvatting van waar wij samen naar streven. Wij wenden al onze technische creativiteit aan om productieprocessen zuiniger en dus economisch rendabeler te maken. Op deze manier zorgen we mee voor een evenwichtig milieu.

Recruitment offer

In verschillende productieprocessen komt warmte vrij in het productieproces. Denk hierbij aan de afvallucht van een droger of warm afvalwater. Andere processen hebben dan weer warmte nodig. Bij deze stage zal je een concreet voorbeeld van warmte integratie uitwerken. Hierbij vertrek je vanuit de beschikbare gegevens. Indien nodig moet je deze aanvullen met metingen uit een meetcampagne. Vervolgens ga je de financiële besparing bepalen op basis van berekeningen en het opstellen van een geschikt model. Daarnaast moet je ook de nodige aanpassingen onderzoeken en de prijs hiervan bepalen op basis van aan te vragen offertes. Hierbij zullen verschillende scenario's naast elkaar afgewogen worden. Tot slot moet je dit op een duidelijke en overzichtelijke manier rapporteren aan de klant.

Duur van de stage: 6 weken - Periode: juli/augustus/september

Toegepassingsveld: energy

Fasen / taken:

- Inleiding tot de CEE omgeving en methodologie
- Inleiding tot de klantenomgeving : onsite bezoek en deelname aan de meetcampagne
- Analyse en interpretatie van de meetgegevens
- Uitwerken van een gedetailleerde besparingsberekening
- Opbouw van een business case rond de voorgestelde maatregel (CAPEX, OPEX, IRR, ...)

Deliverables:

- Gedetailleerd rapport
- Uitgewerkte PFD
- Voorgestelde aanpassingen aan de installatie en dimensionering van de componenten

Interesse? Contacteer Ilse Kestens op 010/452882 of stuur je kandidatuur/vragen naar info@cee.eu

Deloitte.

Company Information

Do you want to work for a simply irresistible organisation? Where you can be your authentic self and share exciting experiences with a diverse community of passionate people? As one of the largest professional services firms in the world, with more than 6000 employees in 10 locations across Belgium, Deloitte offers everyone endless opportunities. No matter your field of studies, we give you the support you need to find your fit, develop your career, learn every step of the way, prioritise your well-being, enjoy flexibility, and do meaningful work. We select on values and hire for potential, regardless of your background.

We truly believe in creating a diverse and inclusive culture, as it not only empowers our people, but enables us as a firm to better serve our clients: national and international companies, from small and middle-sized enterprises, to public sector and non-profit organisations. What unites us is our Purpose: to connect people and to connect with people, in order to make a positive, enduring impact that matters.

We think boldly, are entrepreneurial, and make decisions based on our Shared Values and the difference we'll make for clients, colleagues, and the wider community.

Recruitment offer

We are looking for talent with different interests and backgrounds who share our values and want to make an impact. To have the opportunity to discover Deloitte from the inside, you must be in your final year of studies and be excited and motivated to join Deloitte. If you are a real team player with an open mind and are eager to keep learning, do not hesitate to apply for an internship with Deloitte!

Deloitte has 10 offices across the country: Antwerp, Brussels, Charleroi, Ghent, Hasselt, Kortrijk, Leuven, Liège, Oostkamp and our headquarters in Zaventem. During your internship, you will be based at one of those locations, focusing on one of the following exciting fields:

Accounting & Controlling, Audit & Assurance, Corporate Finance, Human Resources, Office management, Risk Advisory, Consulting, Tax, Technology

Onderweg.
Naar beter.

NMBS

-  nmbs.be/stages
-  stage@nmbs.be
-  Locations all over Belgium

Company Information

NMBS/SNCB is the Belgian company for passenger railway transport.

Although less visible than our train stewards, engineers play a crucial role in our business. You can find them in 3 departments, each with its own speciality.

In our Technical department, engineers either work as supervisors in one of our maintenance centres spread across the country or work in the study department in Brussels.

In our Transport department, engineers work on the organisation and planning of train traffic.

Finally, our Stations department is responsible for all construction works. They build and renovate our stations, car and bicycle parks, offices and our maintenance centres.

Public transport is of great importance in the sustainable society we are evolving towards. We have the future on our side. How about joining us to help us achieve our goals?

Recruitment offer

You'll find our offer of internships on nmbs.be/stages.

There is an internship offer this year for each of the specialities mentioned above, except for engineers in construction/architecture.

If your internship is not part of your curriculum, we are willing to look into it, to see if we can offer it as a student job. If this is your wish, please mention this in your internship application on the website.

Be sure to drop by our booth. Hope to see you there!

THE FUTURE STARTS HERE. JOIN **NXP**

Joining **NXP** Semiconductors means taking a journey into the future, both professionally and personally. As a major global technology player, our ICs and their software enable the smart applications that are changing the world. As an ambitious team of professionals operating in an exciting and international industry, we are always looking for passionate, talented people who will embrace the freedom and challenges we provide.

About **NXP** Semiconductors, Belgium

With our ICs and their software, we aim to lead in the markets for hearing aids and implants, hearables, wearables, and personal health monitoring applications also known as healthcare IoT.

Our activities cover the domains of audio, sound and acoustics, connectivity systems, security and privacy, and ultra-low power solutions for medical devices. The **NXP** Personal Health Product Line is headquartered in Leuven, [the second best city in Europe for youngsters to live](#).

The Product Line Personal Health creates 3 categories of products:

1. Ultra-Low Power DSP and Machine Learning ASICs for hearing aids,
2. Smart Sensors, and
3. Ultra-Low Power Smart BLE Radios.

Product Line Personal Health (PL PH) has a history of about 25 years creating DSPs tuned to the needs of the leading hearing aid manufacturers. Now we are extending the ASICs with embedded machine learning functionality. The team in Leuven is the owner of the CoolFlux DSP architecture.

We developed the **NTAG® SmartSensor**, a single-chip solution that combines NFC and autonomous sensing, data processing and logging. Now we are working on Smart Sensors with BLE radio to log body parameters.

With the [NxH3670](#), PL PH has created a small, very power efficient BLE radio. As our radios have a very low latency, a lot of gaming accessory manufacturers are using our ICs for wireless gaming headsets.

Since our department of 40+ engineers is growing, we have challenging opportunities for software engineers, digital chip designers and RF engineers.

[NXP Belgium](#) is a very innovative site, stimulating creativity in various ways. This leads also to a high number of patents filed by our team resulting in an impressive patent wall.

NXP in Our Community

Partnerships in Education

NXP Belgium collaborates with universities in Belgium offering students real-world experience through internships and providing Master's students with thesis assistance. We participate in annual job fairs and hire graduates from our Belgian universities.

R&D Community

In 2020, the European Commission declared Leuven to be the European Capital of Innovation and **NXP** is proud to be a part of this environment of invention. We are a member of [Leuven MindGate](#), a cooperation between the government, local companies and knowledge institutions focused on elevating Leuven as a top destination in health, high-tech and creativity. Finally, The Katholieke Universiteit of Leuven ranks first on the list of [the most innovative universities in Europe](#) and Leuven is home to [IMEC](#), the largest independent research center for VLSI or nano-technology research.

Career development

NXP fosters a culture appreciating employees taking initiative. We offer various paths through your career. Our Career Ladder helps employees progress equally within their specialty: following the path to Technology Expert, growing to be the technical lead that is responsible for the system architecture of our products, becoming a Master in Project Management, or taking the Line Management route to lead people, functions, and businesses.

You can find all our vacancies on the [NXP career site](#).

With our ICs and their software, we aim to lead in the markets for hearing aids and implants, hearables, wearables, and personal health monitoring applications also known as healthcare IoT.

Our activities cover the domains of audio, sound and acoustics, connectivity systems, security and privacy, and ultra-low power solutions for medical devices. The NXP Personal Health Product Line is headquartered in Leuven, the second best city in Europe for youngsters to live.

The Product Line Personal Health creates 3 categories of products:

1. Ultra-Low Power DSP and Machine Learning ASICs for hearing aids,
2. Smart Sensors, and
3. Ultra-Low Power Smart BLE Radios.

Product Line Personal Health (PL PH) has a history of about 25 years creating DSPs tuned to the needs of the leading hearing aid manufacturers. Now we are extending the ASICs with embedded machine learning functionality. The team in Leuven is the owner of the CoolFlux DSP architecture.

We developed the NTAG@ SmartSensor, a single-chip solution that combines NFC and autonomous sensing, data processing and logging. Now we are working on Smart Sensors with BLE radio to log body parameters.

With the NxH3670, PL PH has created a small, very power efficient BLE radio. As our radios have a very low latency, a lot of gaming accessory manufacturers are using our ICs for wireless gaming headsets.

Since our department of 40+ engineers is growing, we have challenging opportunities for software engineers, digital chip designers and RF engineers.

NXP Belgium is a very innovative site, stimulating creativity in various ways. This leads also to a high number of patents filed by our team resulting in an impressive patent wall.

NXP Belgium collaborates with universities in Belgium offering students real-world experience through internships and providing Master's students with thesis assistance. We participate in annual job fairs and hire graduates from our Belgian universities.

In 2020, the European Commission declared Leuven to be the European Capital of Innovation and NXP is proud to be a part of this environment of invention. We are a member of Leuven MindGate, a cooperation between the government, local companies and knowledge institutions focused on elevating Leuven as a top destination in health, high-tech and creativity. Finally, The Katholieke Universiteit of Leuven ranks first on the list of the most innovative universities in Europe and Leuven is home to IMEC, the largest independent research center for VLSI or nano-technology research.

NXP fosters a culture appreciating employees taking initiative. We offer various paths through your career. Our Career Ladder helps employees progress equally within their specialty: following the path to Technology Expert, growing to be the technical lead that is responsible for the system architecture of our products, becoming a Master in Project Management, or taking the Line Management route to lead people, functions, and businesses.

You can find all our vacancies on the NXP career site.

Radix is an Artificial Intelligence solutions provider based in Brussels. Together with our clients, we deliver AI solutions that have a positive impact on the world.

Our mission is to help our clients grow and improve people's lives.

To deliver on our promise, we focus on the combination of 3 elements:

Business: creating high value for our clients, their employees & society

People: delivering technology that can truly assist people, not replace them

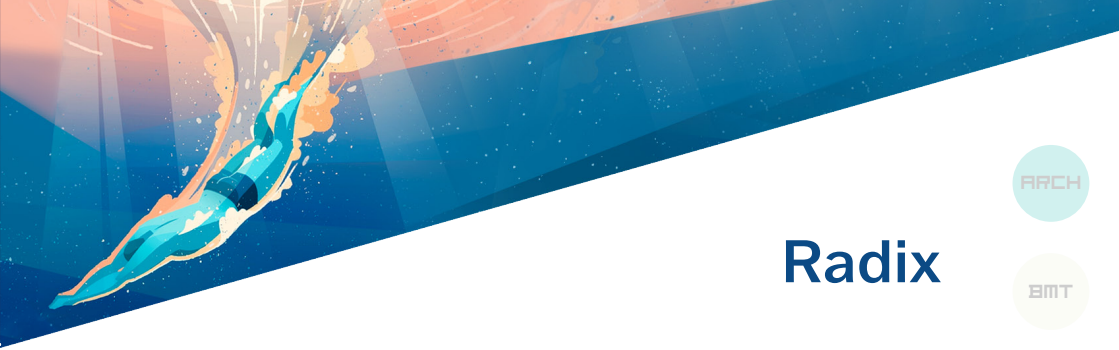

AI: automating intelligence to achieve the highest impact

We partner with clients in different ways, such as discovering AI opportunities, delivering solutions their users will love, staffing temporary AI talent, and training teams.

Founded in January 2018, we now work with ambitious clients like GSK, Brussels Airport, Atlas Copco, and more.

SWECO ZKT. STAGIAIRES KICKSTART JOUW CARRIÈRE

SWECO GEEFT VORM AAN DE SAMENLEVING VAN MORGEN

Wij geven vorm aan de duurzame gemeenschappen en steden van de toekomst. Van zuiver water en verwarmde gebouwen tot efficiënt transport en moderne ziekenhuizen. Een nauwe samenwerking met onze klanten en grondig inzicht in hun behoeften garandeert succes.

SPRINGPLANK NAAR EEN OPWINDENDE CARRIÈRE

Bij Sweco kom je terecht in een uitdagende werkomgeving. Je krijgt de kans om te leren van onze ervaren ingenieurs die jou toegewijd zullen begeleiden en inspireren. We hanteren een hands-on aanpak waarbij je als stagiair wordt ondergedompeld in boeiende projecten waarin verschillende ingenieursdisciplines aan bod komen. We bieden diverse stagetrajecten aan in onze divisies Buildings, Infrastructure, Industry, Energy & Environment, BUUR en Pharma.

LAAT VAN JE HOREN!

Stel je kandidaat via jobs@swecobelgium.be.
Lees meer over onze divisies op www.swecobelgium.be.

 swecobelgium.be/

 jobs@swecobelgium.be

 Antwerpen-Berchem, Gent, Leuven, Kortrijk, Hasselt, Brussel,...

Company Information

Sweco is het meest toonaangevende ingenieurs-, advies- en ontwerpbureau van Europa en blijft de evolutie steeds één stap voor. Wij werken samen met onze klanten aan hoogstaande engineeringprojecten in de openbare en private sector, en geven vorm aan de steden en gemeenschappen van morgen.

Binnen Sweco Belgium hebben we verschillende divisies die afgestemd zijn op specifieke klantengroepen zijnde gebouwen, kleine en grote infrastructuur, steden, industrie, pharma en energie. Onze multidisciplinaire aanpak resulteert in duurzame gebouwen, efficiënte infrastructuur en toegang tot elektriciteit en zuiver water.

Recruitment offer

Om onze missie "Transforming Society Together" waar te maken, zoeken we voortdurend naar jong, opkomend talent.

Je bent pas afgestudeerd als burgerlijk of industrieel of bio ingenieur. Als teamplayer realiseer je samen met je team de uitdagende opdrachten van onze klanten. Met een sterk gevoel voor verantwoordelijkheid, een open ingesteldheid en communicatieve vaardigheden ben je snel lid van onze Sweco familie.

Ook wanneer je nog niet helemaal klaar bent met leren is Sweco dé plek om ervaring op te doen. Zo bieden we niet alleen leerrijke stageplekken, maar kan je zelfs als ingenieur aan de slag terwijl je nog verder studeert.

Witteveen + Bos

Ingenieursbureau

www.witteveenbos.com

Ingenieurswerk is mensenwerk

Internationaal ingenieursbureau

Witteveen+Bos is een advies- en ingenieursbureau, met vestigingen in Gent, Steenokkerzeel en Antwerpen-Berchem. Als onderdeel van een grote internationale groep, bieden we wereldwijd oplossingen voor complexe maatschappelijke uitdagingen. Dit op het gebied van water, milieu, infrastructuur en bouw.

Verscheidenheid aan projecten vraagt multidisciplinaire werkwijze

Werken bij Witteveen+Bos is net zo divers als onze projecten. Onze werkwijze is multidisciplinair. Zo werken onze specialisten uit verschillende werkvelden in projectteams aan de planning, vormgeving en het ontwerp van verantwoordde oplossingen met breed maatschappelijk belang.

Ruimte voor talent en ambitie

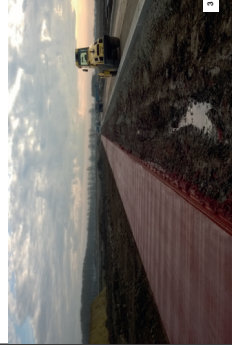

We willen een werkgever zijn, die investeert in het waarmaken van dromen en ambities van onze medewerkers. Daarom streven we naar een atwisselend takenpakket, verantwoordelijkheid en ruimte voor eigen initiatief.

Ook persoonlijke groei vinden we uitermate belangrijk. Zo worden wensen en verwachtingen regelmatig afgestemd en bieden we ondersteuning in het vormgeven van je eigen loopbaan met de juiste coaching en opleidingsmogelijkheden.

Knappe projecten vragen knappe koppen

Om ons team te versterken zijn we ook op zoek naar jonge en getalenteerde collega's. Snuister door onze vacatures op www.witteveenbos.com. Heb je interesse in één van onze functies en wens je verdere inlichtingen? Dan kan je terecht bij Kristof Myrckx op het telefoonnummer: +32 (0)477 46 60 05 of via mail: hr-be@witteveenbos.com

Witteveen + Bos

1. Verapax Brug Gent

In opdracht van het Agentschap Wegen & Verkeer, Stad Gent, F. Arys, De Lijn en De Vlaamse Waterweg werken we - samen met een consortium - een studie uit voor de bouw van de Verapaxbrug in Gent. We zetten in op een betere doorstroom van het verkeer tussen de R40 en de omliggende snelwegen.

2. Oostenveelverbinding Antwerpen

De ingenieurs van Witteveen+Bos werken mee aan het grootste infrastructuurproject dat de Belgische markt momenteel kent. Specifiek hebben we ons gericht op de ontwerpen voor de tunnels, onder de Schelde, of kanaaldekken.

3. Logisiek Park Waasland Beveren-Waas

Een mooi staalje waar de omgevingsvergunning en korte doorlooptijd bij uitvoering een eerde eenvoudige ontwerp van wegen, roering, afwatering en grondverzet toch omvoren in een uitdagend project. Door de korte doorlooptijd konden de eerste bedrijven zich tijdig vestigen op de nieuwe site!

4. Neo GBW NEO sportpark Hezel

Op en rond de Brusselse Hezelsite staan heel wat projecten op stapel. Een van de eerste dossiers die doorgaan en wij mogen ontwerpen, is het nieuwe sportpark aan de voet van het Atomium. Futuristische gebouwen maken de nieuwe sportstad af!

5. Fietsen door de heide

Dese iconische, monumentale fietsbrug, vormt de missing link tussen 2 knooppunten. Fietsers kunnen hierdoor veilig de Weg naar Zuidendaal kruisen. Met een lengte van 294 m, verzoemen we veiligheid, functionaliteit en de beleving van fietsers.

6. Oostenveel project Scheidelunnel in Virtual Reality

Evacuatiemogelijkheden bij brand in andere calamiteiten in ondergrondse parkings, tunnels, metrostations, ... is een complexe onderzoeksmatie. Witteveen+Bos heeft voor de Oostenveelunnel alle simulatie en scenario's uitgewerkt wat behint brandveiligheid en evacuatiemogelijkheden.

Boston Consulting Group

🔗 BCG.com

@ BRURecruitingBE@bcg.com

🌐 Antwerp Area

Beyond is where we begin.

Company Information

Boston Consulting Group partners with leaders in business and society to tackle their most important challenges and capture their greatest opportunities. BCG was the pioneer in business strategy when it was founded in 1963. Today, we help clients with total transformation—inspiring complex change, enabling organizations to grow, building competitive advantage, and driving bottom-line impact.

To succeed, organizations must blend digital and human capabilities. Our diverse, global teams bring deep industry and functional expertise and a range of perspectives to spark change. BCG delivers solutions through leading-edge management consulting along with technology and design, corporate and digital ventures—and business purpose. We work in a uniquely collaborative model across the firm and throughout all levels of the client organization, generating results that allow our clients to thrive.

Recruitment offer

BCG's internship programs give students from many disciplines and backgrounds the opportunity to get a true feel of what it's like to work at BCG. More than an opportunity to bolster your résumé, an internship offers the potential to launch a career at BCG—as a vast majority of our interns receive offers for full-time positions. The duration of the internship varies but is typically ~6 weeks

For the BCG Brussels office, it is required that you are fluent in Dutch (or French), and in English. For our internship programs, we are looking for Master 1 students across all fields of engineering studies.

As a BCG intern, you'll work with and be mentored by BCG consultants, and you'll take responsibility for specific components of a client project. As a case team member, you'll gain a 360-degree perspective on life as a BCG consultant—from working on client projects to socializing with colleagues.

At BCG Brussels, we offer internships to students in their penultimate year of study (i.e. Master 1 students).

Humasol

humasol

humasol.be

recruitingleuven@humasol.be

Leuven, Ghent and Brussels

Company Information

Humasolis a non-profit organization that aims to make renewable energy, water and sustainable technology accessible to everyone. We work on these themes in Africa, Asia and South America.

Humasol works closely with local partners in the South to find a sustainable and qualitative solution for a technical problem . During our projects we pay attention to the technical aspect, such as the design and installation of photovoltaic solar panels, but also to the socio-economic context , such as setting up local management organizations that maintain and monitor the installations.

Recruitment offer

Our projects are carried out by students and volunteers who, after thorough preparation during the academic year in Belgium, spend several weeks or months in summer at the project location. The projects are varying from PV-installations to food-processing, to sustainable entrepreneurship, all to help make technologies available for all.

-  irex-consulting.com/
-  careers@irex-consulting.com
-  Brussel, Leuven

Company Information

We work to create competitive advantage and value for our clients by focusing on operational excellence and business opportunities. Our target markets are energy companies and energy consumers for whom energy management should be of strategic importance.

We are engineers and our approach is that of entrepreneurs. We think, create, model and deliver working solutions. This is what drives us in putting to action our energy market expertise: generate ideas to create value, convert them into well scoped projects, analyze requirements in depth, model tailored solutions, manage the projects to delivery and ensure operational success.

Recruitment offer

The irex traineeship involves an intensive coaching week by experts to give interns a full overview of the energy value chain, followed by working on one of these specific topics:

- Digitalization & smart metering trends across European suppliers markets
- Gas quality tracking in transport grids with multipoint injection
- Investment optimization of local renewable production and storage in France
- Investment optimization of residential flexibility with steerable assets
- MIG6 new business opportunities
- Strategy Piloting and Customer Lifetime Value (CLV)
- Sustainable Energy without the hot air in Belgium

IAESTE

iaeste.be/

[@ iaeste@vtk.be](mailto:iaeste@vtk.be)

[Leuven](#)

Company Information

WIE ZIJN WE?

Als internationale studentenorganisatie brengt IAESTE de wereld naar Leuven en jou naar de rest van de wereld. IAESTE's missie is om het makkelijk te maken voor jou en je medestudenten om technische ervaring op te doen én andere landen te ontdekken, allebei in één klap. Dat doen we natuurlijk niet alleen, maar met de hulp van een netwerk van 3000+ studenten-vrijwilligers aan honderden universiteiten over meer dan 80 landen!

WAT DOEN WE?

Wat doet IAESTE om haar missie waar te maken? Onze kernactiviteit is het begeleiden van trainees bij hun internationale stage. We zoeken stageplaatsen in België, begeleiden en entertainen buitenlandse stagiairs die naar ons land komen en helpen studenten uit Leuven een geschikte stage te vinden in het buitenland.

Daar komt het één en ander bij kijken, en IAESTE is dan ook de ideale plaats om zowel je technische als organisatorische en communicatievaardigheden bij te schaven naast je studie. Op onze internationale conferenties kun je als IAESTE-lid deelnemen aan allerhande soft-skill workshops in een ver weg gelegen setting en leer je fantastische mensen kennen van over de hele wereld. Zelfs jaren na hun studie onderhouden ex-IAESTE leden nog veel hechte vriendschappen over taal-en cultuurgrenzen heen. Naast deze activiteiten gaat ons IAESTE comité elk semester op uitwisselingsreis naar een bevriend comité in Europa!

Recruitment offer

Lijkt IAESTE je wat? Wil je zowel echte als metaforische bruggen kunnen bouwen? Altijd al op zoek naar die ene kans om je onder te dompelen in de Vietnamese taal en Guatemalteekse keuken? Is de wereld jouw bitterbal? Wil je graag een internationale stage doen naar een ver land? IAESTE is het hele jaar lang open-for-business. Kom dus gerust langs onze booth, spreek ons aan of stuur een berichtje op onze socials. In het begin van het jaar organiseren we tal van activiteiten om nieuwe leden en geïnteresseerden wegwijs te maken in onze organisatie. Hou dus zeker een oogje op de relevante kanalen voor meer informatie!

Panenco

📄 panenco.com

@ hello@panenco.com

🌐 Hyphen One
Kolonel Begaultlaan 1A/51
3012 Leuven

Company Information

We are a digital product studio with headquarters in Leuven, Belgium. Founded in 2014, we've grown into a tight-knit team of 50 people, on a mission... We love to partner with industry experts to turn years of hands-on knowledge into scalable digital products.

Recruitment offer

- We're a product studio
We love turning ideas into digital products. Our mission as a company is to build a portfolio of lovable products and is underpinned by a culture of innovation and pure craftsmanship.

Some of our software engineers put it more simply: "we just build cool shit".

- About our internship program
We love to share our experience with a motivated team of interns, working holistically on product development trajectories, covering all technical and operational dimensions. We're open to new ideas and initiatives from your side either within specific technical domains (chapters) or at a product level.

At Panenco, we strive to involve interns in one or more of our products and you will be able to directly contribute to the improvement of those products. We value these contributions and that is why all of our internships, after an unpaid period of two weeks for training purposes, are automatically converted to paid internships for the remaining period.

- Software engineering internship
Our passionate engineers embody quality when building software. We're working with modern web technologies such as Node.js, React.js. and Typescript and are keen on a continuous improvement of our setup, best practices and clean codebases.

During your internship, you will become part of a dedicated product team to explore the entire product development journey in a hands-on manner. You'll build API's, work on future-proof data models and turn user stories into functioning software.

You'll get to learn from experienced software engineers who have built the most amazing pieces of software across the years. How much you want to learn from them is fully up to you!

Where talented people find their place

Use your skills to make a positive difference in the world

What comes to mind when you think of PwC? Auditing? Tax? Accounting? Consulting? We're all of those things - and so much more! PwC is your opportunity to learn with purpose, lead with heart, and make a positive impact on the world.

Whether you want to delve into the fascinating and constantly changing tax landscape, go deep into the world of deals, or make a difference by solving problems - you can do it all here. Bring your talent to PwC and help us develop a lasting way to make a change for our clients.

See how you can nurture your future with PwC, your career mentor, and discover how fulfilling being part of our community can be! Visit www.careers.pwc.be and apply now.

Recruitment offer

We offer internships within all Lines of Service (Tax and Legal Services (TLS), Assurance, Advisory):

- School internships: Assurance, TLS, Advisory
- We can adapt your internship period based on your school contract
- Unpaid internship
- Positions in our various offices

Robojob

🔗 robojob.eu/nl
@ evelyn.timmermans@robojob.eu
🌐 Heist-op-den-Berg

ROBOJOB
FIRST IN CNC AUTOMATION

Company Information

RoboJob is een Vlaamse scale-up, gespecialiseerd in slimme robotica-systemen voor de metaalindustrie. Een cruciaal onderdeel van onze toepassingen is onze innovatieve besturingssoftware. Dit systeem stuurt robots en andere machines aan, optimaliseert de productieplanning en voorziet een eenvoudige, gebruiksvriendelijke interface. Het wordt volledig inhouse ontwikkeld in een hogere programmeertaal door een hecht team van getalenteerde experts. Vandaag zijn we op zoek naar een Student of Trainee die dit team kan vervoegen en mee kan bouwen aan ons succesverhaal.

Recruitment offer

3D reconstructie

Een goed begrip van de 3D structuur van de omgeving is een essentieel onderdeel van robotica-toepassingen. Het verkrijgen van 3D informatie kan door gebruik te maken van 3D scanners, maar deze toestellen zijn vaak enorm duur. RGB-camera's daarentegen zijn goedkoper, compacter en lichter. Maar het omzetten van 2D beelden naar 3D is een uitdagend probleem, zeker voor reflectieve, metalen onderdelen. Net als in vele andere domeinen hebben AI systemen ook hier recent voor enorm veel vooruitgang gezorgd.

Het doel van deze stage is om een vergelijking te maken tussen deze recente AI modellen en meer traditionele systemen, specifiek voor de taak van 3D reconstructie op basis van 2D beelden van reflectieve objecten.

Er is reeds een dataset ter beschikking om snel van start te kunnen gaan en de student zal begeleid worden door een multidisciplinair team van experts.

3D visualisatie

Het RoboJob software-platform maakt sterk gebruik van 3D visualisaties om gebruikers te helpen bij het instellen van hun robot-systeem. We werken daarvoor met eigen componenten die steunen op threejs, een populaire JavaScript bibliotheek.

Het doel van deze stage is om de functionaliteit van deze componenten uit te breiden. Een voorbeeld van een belangrijke uitbreiding is het ondersteunen van animaties. Het doel daarvan is om de visualisatie van bewegende onderdelen (vb. robot-grijpers of geautomatiseerd magazijnen) overen te laten komen met hun fysieke tegenhangers.

Tijdens deze stage zal de toevoeging uitgedacht, geïmplementeerd en getest worden, in samenwerking met een multidisciplinair team van experts.

Unipartners

 consultancy.unipartners.be

 yni.daniels@unipartners.be
Amber@UniPartners.be
Lien@UniPartners.be

 Kardinaal Cardijnstraat 7
 2840 Rumst

Company Information

UniPartners is gespecialiseerd in IT & Finance consultancy. We benaderen consultancy op een andere manier, door onze brede visie op dienstverlening en onderaanneming zijn onze projecten zeer gevarieerd en kunnen we snel inspelen op de unieke noden van onze klanten.

Bovendien hechten we veel belang aan de persoonlijke ontwikkeling van onze consultants. We focussen op het menselijke aspect, stimuleren de persoonlijke groei van onze collega's en zorgen ervoor dat ze zich steeds 100% inzetten voor elk project.

Recruitment offer

Welke rol krijg jij in ons team?

Als stagiair bij UniPartners krijg je een duidelijke opdracht en word je begeleid door AI en machine learning experts.

De omgeving waarin je terecht komt is jong en dynamisch waardoor je een duidelijk beeld van een toekomstige werkomgeving krijgt.

Elke stagiair wordt beschouwd als een medewerker van UniPartners en je krijgt een voorsmaakje van het "werkleven".

Tijdens je stage gebruik je jouw kennis van machine learning en AI om onze werking efficiënter te maken zodat wij bij UniPartners ons meer kunnen focussen op het menselijke aspect.

Wat bieden wij jou?

- Leerrijke en uitdagende stage.
- Goede opvolging en begeleiding door een specialist in zijn vakgebied.
- Mogelijkheid om deels remote te werken.
- Meer carrière mogelijkheden achteraf door een kwaliteitsvolle stage.
- Loopbaancoaching: onze HR-verantwoordelijken helpen je graag in het uitstippelen van je verdere loopbaan.

Viabuild!

 viabuild.be
 jobs@viabuild.be
 Gansbroekstraat 70
2870 Puurs Sint-Amands

Company Information

We zijn een multidisciplinair aannemingsbedrijf dat verschillende activiteiten aanbiedt: van wegeniswerken, grondwerken, asbestverwijdering en burgerlijke bouwkunde over datacenters tot asfalteringswerken, zowel voor de publieke als voor de private sector. We hebben eigen asfalt- en betoncentrales, waaronder onze gloednieuwe betoncentrale in Neder-over-Heembeek.

Onze organisatie telt zo'n 600 medewerkers. We streven er altijd naar om de geprefereerde partner te zijn voor onze klanten, door uit te gaan van ons vakmanschap. Dat zorgt ervoor dat we sterk staan in de verschillende disciplines die we aanbieden, en stelt ons in staat om die geprefereerde partner te zijn.

Recruitment offer

Bij Viabuild staat de werknemer centraal. Want hoe goed het machine- en wagenpark ook zijn, het zijn de werknemers die het doen. Door sterke handen uit de mouwen te steken. Door een knappe kop die de beste oplossing voor een project bedenkt.

Willemen Group NV

 willemen.be

 jobs@willemen.be

 Vlaanderen

Company Information

Wij bouwen iedere dag opnieuw aan een betere wereld. Of het nu gaat om een duurzaam bouwproject of een infrastructuurproject, van het ontwerp over de bouw en financiering tot en met het onderhoud zijn de bedrijven uit onze Groep een solide partner. Dankzij de onderlinge complementariteit kunnen we samen zelfs de meest complexe opdrachten aan. We zijn als aannemer graag een partner die in team het project vorm geeft, optimaliseert en realiseert tot ieders voldoening. Daarbij trekken we voluit de kaart van innovatie en digitalisering.

Onze Groep is vandaag met 2.200 medewerkers en een jaarlijkse omzet van om en bij de 800 miljoen euro één van de grotere familiale bouwgroepen in België. Een aantal jaar geleden zetten we voet aan land op het Afrikaanse continent. Vanuit onze vestiging in Casablanca realiseren we in Marokko met ruim 150 collega's heel wat projecten, voornamelijk in de industriële bouw. Ook in onze buurlanden Nederland, Duitsland en Luxemburg waren we in 2021 op meerdere locaties actief. Onze vestiging in Luxemburg telt intussen ongeveer 100 medewerkers.

Recruitment offer

Welke straffe stage(s) kan je bij ons lopen?

- ...op kantoor als calculator - aankoper - controller – werkvoorbereider? Zeker! Op één van onze kantoren in Drongen, Kapellen, Kontich, Mechelen, Hasselt of Lokeren.
- ...op één van onze werven in uitvoering binnen infra , burgerlijke bouwkunde, gebouwen, industriebouw, funderingen,...? Onze werfleiders, werkvoorbereiders of projectleiders geven je een leerzame begeleiding! Bij de keuze van de werf houden we uiteraard rekening met je woon/verblijfplaats(elke kilometer die je aflegt, wordt vergoed).

Ja, ik wil een straffe stageplaats!

Hoe? Simpel:

- Verstuur je kandidatuur naar jobs@willemen.be ;
- Eén van onze recruiters neemt contact met je op om een aantal praktische zaken af te stemmen;
- We maken online kennis via Teams;
- We regelen een afspraak op je stageplek met je stagebegeleider.

What's in it for you?

Je krijgt de kans om te leren van en ervaring op te doen bij één van onze straffe collega's.

Op dag één krijg je meteen een laptop, de nodige PBM's om veilig te starten en de nodige uitleg om je ding te doen en er dus meteen in te vliegen. Onze personeelsdienst volgt je stage op zodat ze aan het einde van je stageperiode samen met jou je toekomstmogelijkheden binnen onze groep kunnen bespreken (een vast contract, een vakantiejob,...)
